

PLATINUM SINGING BOWL

“The Maluhia”

Product

In Hama’Lu peace and (inner) happiness are very important. It’s essential that our people feel at ease in the world and with themselves. Therefore, Hama’Lu sells the Maluhia, which is a singing bowl made completely out of platinum, which strengthens the connection with the country. The product can be used to come to peace after a busy workday or a terrible day at school. You can use it while meditating or doing yoga, or just when you feel like it. When you hit the bowl with the stick that comes with it, it produces sounds and vibrations. Different sizes will produce different sounds and vibrations. Each sound is good for something else (think about healing, attracting love, etc...), but they all have one thing in common: they make you relax.
